ENGINEERING NEWS-RECORD

A WEEKLY JOURNAL OF CIVIL ENGINEERING
AND CONSTRUCTION PRACTICE

Volume 115

July to December, 1935

McGRAW-HILL PUBLISHING COMPANY, INC.
330 W. 42d St.
NEW YORK CITY

INDEX TO ENGINEERING NEWS-RECORD

VOLUME 115—July to December, 1935

	Page
July 4	1 to 36
July 11	37 to 70
July 18	71 to 104
July 25	105 to 138
Aug. 1	139 to 176
Aug. 8	177 to 210
Aug. 15	211 to 244
Aug. 22	245 to 278
Aug. 29	279 to 314
Sept. 5	315 to 350
Sept. 12	351 to 384
Sept. 19	385 to 418
Sept. 26	419 to 452
Oct. 3	453 to 488
Oct. 10	489 to 524
Oct. 17	525 to 558
Oct. 24	559 to 592
Oct. 31	593 to 626
Nov. 7	627 to 664
Nov. 14	665 to 698
Nov. 21	699 to 732
Nov. 28	733 to 766
Dec. 5	767 to 802
Dec. 12	803 to 836
Dec. 19	837 to 870
Dec. 26	871 to 904

A

Aerodynamics:
Aerodynamics and the civil engineer. W. W. Pagon, Pt. VIII, using aerodynamic research results in civil engineering practice 601, e618
Wind tunnel in aerodynamics laboratory constructed of gunite applied on glue treated mesh. J. H. Lucas *682
Aeronautics:
Airports:
Commerce Dept. plant extensive program n67
Newark airport allotted funds for improvement n450
Warwick, R. I., airport lighting case. n794
WPA airports' supervision given to U. S. Dept. of Commerce n693
Aluminum:
Smithfield Street Bridge at Pittsburgh —Aluminum bridge floor inspected... 215
American Association of Engineers:
Directors make plans to add to society's usefulness n694
American Association of State Highway Officials:
Miami meeting 891
American Bridge Co.—C. F. Goodrich chief engineer n28
American Institute of Steel Construction
White Sulphur Springs meeting n589
American Public Health Assn.:
Milwaukee meeting n556
American Railway Bridge & Building Association:
Chicago meeting n656
American Road Builders:
Program for convention n898
Road show to be held in January n382
American Shore & Beach Preservation Assn.:
Meeting to be held in Washington n831
Ocean City meeting e97, n101
Washington meeting n864
American Society for Testing Materials:
Report of Detroit meeting 20, e24, 55
American Society of Agricultural Engineers:
Rainfall intensity data explained n832

AMERICAN SOCIETY OF CIVIL ENGINEERS

Birmingham meeting 580, e585
Changes in member grades of A.S.C.E. opposed. W. J. Cox 1346, 1443
Change on membership grade opposed. P. D. G. Hamilton 1443
Honorary members elected 689
Report of Los Angeles meeting 59, pt. II 84

American Society of Draftsmen:
Incorporated in California n68
American Water Works Assn.:
Central States Section meeting at Pittsburgh 307
New Jersey Section organized n657
Wisconsin Section meeting and Missouri Valley Section meeting n694
American Water Works Manufacturers Assn.:
Directors elected n449

AQUEDUCTS

A.S.C.E. discusses aqueduct construction 84
Colorado River:
Bids asked for pumping plants n620
Bids opened for three tunnels n207
Cajalco Dam contract awarded n412
California Water District considers cities applications n899
Pasadena tunnel driven in soft material *513
Sealed pump chambers at San Jacinto tunnel *252
Work in progress 126
Owens Valley aqueduct:
Extension includes 11.3 mile tunnel. *47

Associated General Contractors:
Convention to be held at Miami n730
New York State Chapter meeting n830
Auditoriums:
Kansas City auditorium of concrete and steel *419

B

Baltimore:
Allotment by PWA made for financing program n518, e516

BEAMS

Coefficients for beam deflections under various loading arrangements. Robins Fleming *844
Concrete beam and cylinder strength. F. E. Richart 1722
Fatigue tests reported on reinforced concrete beams 611
Flexural resistance of shallow concrete beams. G. L. Bilderbeck 1723
Flexural resistance of shallow concrete beams. C. B. McCullough *406
Plate action vs. beam action for concrete floors of overhead crossings. C. A. P. Turner 1648
Tests of beam-to-column connections. K. G. Merriam *333
Berry, G. L., named Coordinator of Industrial Cooperation n520

BONDS

Atlanta votes to finance sewer construction n446
Bondholders' committees to be investigated n552
Colorado River waterworks bonds to be sold n412
Denver moving fast on water program. n239
Denver votes approval of water projects bonds n415
Denver votes bonds for change in Fraser River plans n380
Mexico's highway construction bonds for 6-year plan 813
RFC sales of municipal bonds deposited for PWA e378
Santa Ana, Calif., will vote on flood control bonds n412

BOOK REVIEWS

Back to work—the story of PWA. H. L. Ickes 128
Building lines and reservations for future streets 442
Chemistry of cement and concrete. Lea & Desch 615
Comprehensive treatise on engineering geology. C. S. Fox 895
Construction of the piers of the Saratov bridge. Kienia & Lichoshersti 268
Elements of strength of materials. Timoshenko & MacCullough 268
Income and economic progress. H. G. Moulton 756
Journal of the Institution of Civil Engineers 895
Modernizing buildings for profit. K. K. Stowell 442
Public works in prosperity and depression. A. D. Gayer 756
Qualities de l'eau et moyens de correction. Ed Imbeaux 756
Rehousing urban America. Henry Wright 128
Sedgwick's principles of sanitary science and public health. Prescott & Horwood 442
Specification documents for building materials and construction. Merrill & Combs 895
Stadi, Giuseppe de Finetti 616
Surface runoff phenomena. R. E. Horton 615
Suspension bridges of short span. F. H. Frankland 615
Wood handbook 756
Breakwaters:
Algiers breakwater failure due to foundation conditions *123, e131
Calument Harbor — cellular steel breakwater. T. L. Condrun *86, e97

BRICKS AND BRICKWORK

Brick mortar tests discussed by A.S.T.M. 58
New Hampshire highway bridge uses a brick veneer. E. F. Gallagher *813
Thin slab of brick and metal lath shows high strength and low cost *251

BRIDGE ACCIDENTS AND FAILURES

Fire destroys Georgia trestle. S. B. Black *771
Grand Coulee bridge pier tilted by earth pressure *646, e691
Mississippi River bridge collapses and two drown n274
Toledo bridge spans collapse into Maumee River n*520
York River bridge (Que.) damage decision reversed 541

BRIDGE CONSTRUCTION

Bridge-welding procedure. LaMotte Grover *392, 1649
Cowlitz River Bridge, Wash., cofferdams resist 60 ft. head with one line of sheeting. N. F. Helmers *14
Davenport suspension bridge construction *837
Idaho timber suspension bridge built by CCC labor *683
Iron-plate arch reduces load of bridge across marshland *41
New Hampshire highway bridge uses a brick veneer. E. F. Gallagher *813
New York City Triborough bridge suspension towers erected with guy derrick. *218, e236
Oakland bridge concrete in counterweight made heavy by magnetite. R. B. Rothschild, Jr. 788
Oregon coast highway series of bridges. C. B. McCullough *677
Plate action vs. beam action for concrete floors of overhead crossings. C. A. P. Turner 1648
Rip Van Winkle bridge construction practices *640
San Francisco-Golden Gate — battling storm and tide in founding pier. R. G. Cone *245, e270
Yarmouth, Mass., Bass River bridge uses precast concrete piles with armor belt of gunite. William Rittenburg .. *464, e476

BRIDGE DESIGN

A.S.C.E. discusses highway bridge progress 583
Arc-welded bridge girders—correction. LaMotte Grover 1649
Arc-welded bridge girders tested to failure. LaMotte Grover *392
Award for bridge design n28
Belgrade suspension bridge *546
Bridge as part of the road e202
Brooklyn's new entrance to Long Island parkways *871
Fatigue properties of heat-treated suspension bridge wire 534
Fore River bridge and Saugus River bridge remove bottlenecks on Boston Shore highways *71
France, La Roche-Guyon bridge, consists of two hingeless arch ribs reinforced with spiral coils *323
Freeport, Ill., rigid frame span bridge. Mogens Ipsen *647, e650
Kansas highway bridges designed as continuous structures. G. W. Lamb. *702, e724
New York City's Triborough bridge design *177
Oregon coast highway series of bridges. C. B. McCullough *677
Plate action vs. beam action for concrete floors of overhead crossings. C. A. P. Turner 1648
Railroad bridge design e585
Rusted bridge under heavy load. C. T. Bishop 1200
Safe bridge railings. L. R. Schureman . 1*201
San Francisco-Oakland Bay Bridge, cable anchorages. Purcell, Andrew & Woodruff *593
Vierendeel truss bridge popular in Belgium. L. G. Racquoi *116, e130
See also Structural design, viaducts.

BRIDGE FLOORS

Aluminum floor of Smithfield Street bridge at Pittsburgh inspected 215
Jackson County, Miss., places concrete decks on old timber trestles. L. C. Winterton *264
Welded steel plate bridge floor over Tuscarawas River, Ohio. Hawley & Merrell *472
Bridge guard *210

BRIDGE RENEWALS AND REPAIRS

Bridge maintenance methods discussed at Railway Engineers' meeting n656
Derricks lift railway spans back onto piers after Republican River flood. Paul Emery *772
Thorn, Poland, strengthening bridge by adding trusses *19
Waterloo bridge demolished without interfering with river traffic *597

BRIDGES

Belgium:
Vierendeel truss bridges. L. G. Rucquoi *116
Belgrade, Yugoslavia:
Suspension bridge *546
Chicago:
Randolph viaduct bids opened n864
Cowlitz River, Wash.:
Cofferdams resist 60 ft. heat with one line of sheeting. N. F. Helmers *14
Davenport bridge, Iowa:
Approaches completion n*415
Opened to traffic n760
Rock Island bridge to be studied by committee n656
Suspension bridge construction *837
Economic justification for new bridges. e690
Fore River bridge:
Helps remove bottlenecks on Boston Shore highways *71
France:
La Roche-Guyon bridge consists of two hingeless arch ribs *323
Freeport, Ill.:
Rigid frame span bridge design. Mogens Ipsen *647, e650
Georgia trestle destroyed by fire. S. B. Slack *771
Grand Coulee Dam:
Aggregates transported across Columbia by long suspension belt *674

*Illustrated; a, abstracts; e, editorials; l, letter; n, news

India:
Calcutta cantilever bridge planned... 773
Jackson County, Miss.:
Places concrete decks on old timber trestles. L. C. Winterton.....*264
Muskingum Valley:
Steel railroad bridges to be relocated (unit prices) 524
New Orleans:
Railway and highway bridge opened.n*865
New York City:
George Washington bridge width-correction. Charles Carswell 1443
Triborough bridge cable spinning completed n*242
Triborough bridge design *177
Triborough Bridge—suspension bridge towers erected with guy derrick.... *218, e236
Oregon:
Coast highway bridges. C. B. McCullough *677
Pan-American Highway:
U. S. will build three bridges.....n586
Pittsburgh, Pa.:
Smithfield Street bridge floor of aluminum inspected 215
Republican River railway spans lifted back onto piers after flood. Paul Emery *772
Rip Van Winkle bridge, Hudson, N. Y.:
Modern construction practices.....*640
Opened to traffic n*27
Riverside-Delanco bridge:
All-welded bridge n*169
Salmon River, Idaho:
Timber suspension bridge *683
San Francisco Golden Gate:
Battling storm and tide in founding pier. R. G. Cone *245, e270
Cable spinning begun n*761
Catwalk cables strung across n*276
Catwalks for cable spinning.....n*479
San Francisco-Oakland Bay Bridge:
Cable anchorages. Purcell, Andrew & Woodruff *593
Cable spinning complete.....n*822
Cantilever span *545
Catwalk rope lost n796
Raising first deck steel n*899
Repeated load tests on full size eyebar check results in small specimens. Hussey & Loos *458
Saugus River Bridge:
Helps remove bottlenecks on Boston Shore highways *71
Syracuse, Ind.:
Iron-plate arch reduces load of bridge across marshland *41
Thorn, Poland:
Strengthening steel bridge with trusses *19
Toll bridges in Pennsylvania to be acquired by state n901
Tuscarawas River, Ohio:
Welded steel plate bridge floor. Hawley & Merrell *472
Washington, D. C.:
Calvert St. Bridge n*99
Waterloo bridge, London:
Demolished without interfering with river traffic *597
West Epping, N. H.:
Brick facing applied to highway bridge *813
Building accidents and failures:
B & O exhibition building wrecked by high wind n274
Hollis theatre, Boston, collapse caused by truss distortion n521

BUILDING CONSTRUCTION

English building developments 599
Industry builds again e444
New federal building in every Congressional district e24
Knickerbocker Village, New York, housing project construction costs..851, e862
New York Planetarium—centering for the dome. R. L. Bertin *108
New York Post Office—circular caisson sinking *37
Prefabricated houses bid for new attention *42, e63
Reinforced brickwork in Indian Earthquake. Vaugh & Mosher *738
Steel grille for door and window openings *904
Treasury order halts work on 27 post offices n101

BUILDING DESIGN

Aerodynamics and the civil engineer. W. W. Pagon 601
California applies earthquake—resistant construction to schools. C. H. Kromer 856
Circular tower hotel in Italian Alps..*110
Damp proof walls. G. L. Bilderbeck....1163
Dome structures and their design. J. E. Kalinka 1163
Flat shell domes of reinforced concrete. W. S. Hewett 1723
Four room low cost brick house.....*261
Glue-treated mesh serves as backing for air-applied concrete. J. H. Lucas....*682
Kansas City Auditorium uses framing of concrete girders *419
Laminated timber arches. E. H. Schaub.161
Liverpool Cathedral design.....*598
New York Planetarium has unusual dome of thin concrete. P. F. Pape.....*105
San Francisco Mint designed to resist earthquakes. J. J. Creskoff.....*466
Rigid frames for building foundations. K. R. Garland *427
Techwood, Atlanta, first federal housing is fireproof *7
Thin concrete shell roof tested *635
Wembley, England, swimming pool housed in building with three hinged arch roof *196
See also Beams, Brick, Columns, Housing; Earthquakes, Roofs, Structural design.
Building laws and regulations:
Federal buildings may be controlled by district inspectors n866
Building moving:
Los Angeles building cut to permit moving in *586
New Orleans building moved on 600 steel spools. C. G. Cappel *559
Building repairs and alterations:
New Orleans' old French Market to be reconstructed n65
Pulitzer building, N. Y. C., underpinned without shoring while being altered. L. M. Zach *189

BUILDINGS

Chicago:
Century of Progress structures razed. n*341
Cities invest their PWA money in various buildings (picture feature)..... 503
Fort Knox chosen as site for U. S. Treasury vault 51
Italy:
Circular tower hotel in Alps.....*110
Kansas City, Mo.:
Auditorium of concrete and steel....*419
Liverpool, England:
Cathedral design *598
London, England:
Permanent exhibition center to be built n276
Los Angeles building cut to permit moving n*586
McCook, Ill.:
Diesel locomotive factory of welded frame n*312
New Orleans, La.:
Hospital building moved on 600 steel spools. C. G. Cappel.....*559
New York City:
Planetarium of American Museum of Natural History. P. F. Pape *105
Planetarium—centering for the dome. R. L. Bertin *108
Post Office Annex n*793
Post Office—circular caisson sinking.. *37
Pulitzer building underpinned without shoring while being altered. L. M. Zach *189
Picture Butte, Alberta:
$1,000,000 sugar refinery 437
Pittsburgh:
Steel company plans extensive construction n867
San Francisco:
U. S. Mint designed to resist earthquakes. J. J. Creskoff.....*466
Washington, D. C.:
Supreme Court occupies its Parthenon palace n*521
Wembley, England:
Swimming pool in building with three hinged arch roof *196

C

Cables:
San Francisco-Oakland Bay Bridge:
See Bridge design; Bridge construction.

CAISSONS

New York Post Office—circular caisson sinking *37, e62
Quabbin Reservoir—pneumatic caissons for corewall (unit prices) 278
Rotary caisson-sinking. C. L. Powell..1336
Canada:
Three works projects abandoned by new government n861

CANALS

All-American Canal:
Bids asked n621
Colorado River desilting will save in canal's cleaning charges *538
Under consideration by board n132
Chesapeake-Delaware Canal:
Widened for coastwise ships.....n*901
Florida Ship Canal:
Bids asked n481
Construction authorized n341
Could be shorter. T. M. Ripley.....1443
Engineers named n518
Excavation bids n552
Effect on state's water supply.....n313
To start immediately.....*376, e379
Hennepin Canal:
Army engineers to survey old canal.n901
Ogden canal bids asked for n762
Panama Canal:
Engineer's recollections. J. F. Stevens. pt. 9 216, e236; pt. 10 255; pt. 11 330
Unhinging 800 ton lock gates for quoin and miter repairs. Clinton Morse..*817

CEMENT

Portland cement discussed at A.S.T.M. meeting 55, e62
Portland cement for road-base stabilization. W. H. Mills, Jr.....*751
Puzzolanas in mortars and concrete. E. W. Scripture, Jr.....*563, e585
Census:
Business census to include survey of construction n383
Central Nebraska Public Power & Irrigation District:
PWA allotment of funds to start construction n478
Central States Sewage Works Assn.:
Urbana, Ill., meeting n622

CENTRAL VALLEY WATER PROJECT

Allotment for work to be made to Reclamation Bureau n*413
Allotment reduced n518
Funds reallocated allowing use of revised plans n831
President Roosevelt revises procedure for work schedule n727
Reclamation Bureau outlines plans for project n552

CHANNELS

Cahokia Creek diversion and East St. Louis drainage. H. Shifrin *525
Hudson River deepening held dangerous to tunnels n760
Chicago:
Street paving funds from WPA.....n412
Chimneys:
Copper smelter stack of concrete rises to 413 ft. height in Utah Spencer & McDermott *561
China:
Hydraulic laboratory established to study river control and erosion *463

CITY PLANNING

Cedar Rapids, Iowa, plans system for 1970 .....*118
International congress reviews methods of public cleansing. H. P. Eddy, Jr.... 507
New York City zoning laws should be revised n831
Public Works Conference discusses city planning 576
Skyscraper control n828
Civilian Conservation Corps.:
Allotments approved for maintenance.. n65
President will recommend permanent CCC of 300,000 .....n480

COAST EROSION AND PROTECTION

A.S.B.P.A. asks government to cooperate in shore protection n864
Defend the frontier e758
New Jersey coast damaged by gale.....n730
Shore protection problems discussed by A.S.B.P.A. meeting n101

CODES

Construction:
Building codes to be correlated n656
Experience with the construction code. J. W. Follin:
Pt. I, a, drafting the code, 401, b, administrative experiences ... 402
Pt. II, c, code experience summarized, 431, d, outlook for construction regulation 432
Lesson in coordinated effort.....e410
New York City building code hearings begun n588

COFFERDAMS

Bonneville Dam—cofferdams in swift water. C. I. Grimm *315, e338
Cowlitz River bridge, Wash., cofferdams resist 60 ft. head with one line of sheeting. N. F. Helmers *14
Grand Coulee—constructing the first cofferdam *148
Colorado River Authority (Texas):
Lower Colorado River project assured by agreement n166
Columns:
Tests of beam-to-column connections. K. G. Merriam *333

CONCRETE

A.S.T.M. discusses construction materials 55
Acid and permeability tests of cement pipe *875
Canvas hoods over sand piles keep water content uniform *823
Chicago Avenue water tunnel lining—old-time continuous mixer for concrete. Frank Rasmussen *49
Device for vibrating molds for concrete test specimens. R. W. Bailey.....*199
Extraordinary margin of safety. H. M. Hadley 1617
Fatigue tests reported on reinforced concrete beams 611
Fineness modulus. C. H. Lee 1201
Life of concrete seaport structures..... 326
Magnetite used for counterweight concrete in Oakland bridge. R. B. Rothschild, Jr. 788
Puzzolanas in mortars and concretes. E. W. Scripture, Jr. *563, e585
Remolding device used for design of concrete mixers for Mississippi River dams. R. P. Johnson *743
St. Petersburg, Fla., concrete recreation pier repaired. F. G. Lee *1
Slab and column produced by new vacuum concrete process n*867
Slag-cement-blend concrete tried at Norris Dam 861
Steel and concrete combinations.....e270
Vibrated concrete strength. Paul Anderson *678
Water-cement ratio maintained by measuring moisture in sand with electric current. C. E. Wuerpel.....*52, e62

CONCRETE AGGREGATES

Fort Peck Dam aggregate and toe material plants *305

*Illustrated; a, abstracts; e, editorials; l, letter; n, news

Grand Coulee Dam aggregates transported across Columbia by long suspension belt *674
Grand Coulee—making aggregate *158
Timber silos for storing concrete aggregate *825

CONCRETE MIXERS

Chicago Avenue water tunnel lining—concrete mixed with old time continuous mixer. Frank Rasmussen *49
Mixers mounted on trailers 483
Pneumatic placer with automatic gunman 244
Side and rear discharge on mixer *244
Conduits:
Fraser River conduit bids invited n169

CONSTRUCTION

Association may be organized for equipment manufacturers and distributors e270
Berry conference presents strong program n830, e829
Business side of construction 172, 346, 660, 798
Census to be taken by Department of Commerce e618
Census will cover 1935 operations 894
Congress and construction e338
Federal legislation affecting the construction industry 404
Investment and a corollary e410
New activity in construction (charts) 612, e619
Radio conference to discuss construction industry n899
Savings go back into use e271
Two kinds of business e308
U. S. Bureau for study of construction statistics e690
U. S. Department of Commerce establishes the Construction Economics Section n761
Unit prices 70, 278, 452, 523, 591, 626, 836, 869

CONSTRUCTION EQUIPMENT

Cart designed for handling bulk materials *244
Clamshell design stresses reduced weight. P. T. Robin *686
Concrete vibrator 418
Contractors' machinery exhibit n275
Crane, truck 138
Dragline, walking *138
Dredger for reclamation service *558
Drill carriage of compact form for small tunnels 198
Excavator for coal stripping 835
Grader, elevating *104
Hot water heater for winter concreting *835
Rock crusher, portable *418
Roller, patch 138
Scoop wheelbarrow measures aggregates *198
Shackle pin adopted at Grand Coulee Dam *642
Shovels: Power shovel with boom design 345
Structural rib bolt and automatic nut 483
Sump pump driven by vibrator set *659
Tamper converted into digging tool 558
Vibrators eliminate flexible shaft 558
Saw, turntable swing *826
See also Highway equipment.
Construction Equipment Association:
Organization meeting in Chicago n695
Plan association n415
Construction League:
Policy Committee urges ending WPA n730

CONSTRUCTION MATERIALS

A.S.T.M. meeting discusses materials research and standardization 20, e24, 55
Connecticut prescribes rates for dump truck haulage n554
Engineering materials studied at Iowa State College. W. J. Schlick *543
Foreign materials ruling beneficial n166
Fort Peck Dam—aggregate and toe material plants *305
PWA issues rules governing use of foreign materials n794
PWA will not interfere in award of contracts for foreign materials n693
Prices, current 34, 174, 348, 488, 662, 800
Roller copper for use in roofs or other decks *904
Waterproofing of thin copper sheets *345
Construction materials:
See also Aluminum; Brick, Cement, Timber, etc.

CONTRACTORS

Contracting looks ahead e863
Illinois River lock near Peoria—contractor must go to woods and pits for materials n520
Milwaukee Jones Island treatment plant contractors liable in case n416
Montreal court holds contractor not liable for certain damage n901
New York contractor loses suit against state for extra costs n414
Relief works contractor, a genius e896

CONTRACTS

Additional bonding required for Federal Public works n239
Contracts allowed to provide for future wage rules n342
Contracts impossible to perform. Nathan Young, pt. I 530; pt. II 568
Government contracts — blank check clause ruled out n98
Headache specifications. W. O. Barkley 161
Peoria lock construction has peculiar contract specifications n550
Surety bonding e897
Wage regulations for government contracts proposed n168

CONVEYORS

Belt conveyors for spoil transport at Grand Coulee:
Pt. I, planning for excavation disposal. Francis Donaldson *152
Pt. II, belt conveyors in operation *153
Pt. III, designing the belt system. S. M. Mercier *156
Grand Coulee—aggregate plant *158
Grand Coulee—earthmoving by factory process e164
Coupling, double-hinger, for muck car *825
Cribbing:
Bonneville Dam—crib structure for cofferdams. C. I. Grimm *315
Burrard Inlet, Vancouver, precast concrete cribbing for small retaining wall *578
Cushing, J. F., dies n*519

D

DAMS

Alcova—See Casper-Alcova.
Aswan Dam:
Water stored at dam for irrigation 861
Augusta, Ga.:
Commission to investigate power project n380
Aurora site on Tennessee to be developed n481
Bills Brook Dam:
Construction (unit prices) 698
Bonneville Dam:
Bids opened for power house and fishways n554
Convas hoods over sand piles keep water content uniform *823
Cofferdams in swift water at Bonneville. C. I. Grimm *315, e338
Foundations for the dam n795
Large model aids study of project. H. W. Young *195
Power control outlined in bill n167
Progress in construction *16
Ranks third as PWA work provider 54
Timber silos for storing concrete aggregate *825
Boulder Dam:
Boulder lake photo with ten lens camera n*342
Computing the spillway flow. Meyer-Peter & Favre, McConaughy 1409
Construction activities at the dam *125
Far reaching benefits e62
Past construction and work yet to be done *878
President dedicates dam n479
Silt passing through reservoir behind dam 747
Strike halts work n101
View of dam as it will appear on stamp n*447
Water in lake rises n66
Work of human service e477
Cabello Dam:
Negotiations for funds n447
Cajalco Dam:
Contract awarded for work n412
Earthfill dam to be built by soil compaction control *807
Casper-Alcova Dam:
Bids called for n27
Bids for construction (unit prices) 523
Two dam contracts awarded n341
Chambon Dam:
Europe's highest dam construction *876
Cherry Creek Dam:
Work begun n28
Clear Creek Dam:
New spillway permits use of old earth dam *786
Colorado:
Floods wash out two dams n341
Conchas Dam:
Army engineers get funds for dam n168
Work on dam gets under way n655
Dover Dam:
Bids on dam (unit prices) 70
El Vado Dam:
Steel face used for dam. C. P. Seger *211
Files of technical journals aids repairs on old dam. E. M. Wilbur 1443
Fort Peck Dam:
Aggregate and toe material plants *303
Allotment approved n170

Aluminum foil substituted for lead in pipe jointing 877
Bell and spigot joints tested at Ohio State University 429
Coney Island sewage plant—casting concrete pipe 6 ft. in diameter and 24 ft. long *493
Friction tests in new cast iron centrifugally formed pipe 356
Gas line relocation, Muskingum Valley (unit prices) 591
N.E.W.W.A. discusses pipe friction data 439
N.E.W.W.A. studies pipe friction and capacity loss 573
Organization sponsoring pipe joint research 574
Pipe discharge computed by one slide-rule setting. B. C. Seal..... 822
Tacoma water pipes use rocker and suspender supports *816
Tacoma water supply steel cylinder concrete pipe cast in long sections....*405
Telephone ducts lowered by melting ice.*199
Underground conduit research at Iowa State College. W. J. Schlick.....*542
Pitometer, spherical *109
Pittsburgh:
Johnson becomes chief engineer.....n656
Planetariums:
New York Planetarium—centering for the dome. R. L. Bertin *108
New York Planetarium design. P. F. Pape *105, e130
Plywood:
Prefabricated houses use plywood..... *42

PORTS AND HARBORS

Appropriations for rivers and harbors.. 405
Bayonne, N. J., authorizes rail water terminal bonds n867
Calumet Harbor—cellular steel breakwater. T. L. Condron *86
Cartagena, Colombia, deep water port. R. H. Cady *710
Chicago Sanitary District requests control gates in Chicago River.....n*729
English marine terminal has concrete quay. E. E. R. Tratman *265
England's port work development..... 597
Morehead City, N. C., Port Terminal Commission awards steel contract to Germany—PWA will not interfere...n693
Too ambitious port plans e444

POWER AND POWER PLANTS

England's new power plant construction 598
Municipal power plants not to get PWA funds n342
Power districts may be formed 234
Power. See also Hydro Electric power.

PUBLIC UTILITIES

Municipal power plants granted PWA loans n275
PWA power loan test delayed by action of lower court n692
Power districts may be formed 234
Suits over PWA loans for municipal plants dismissed to hasten appeals..n586
Valuation procedure of the Chesapeake & Potomac Telephone Co. reviews by Supreme Court 496, e517

PUBLIC WORKS

Adequate planning needed for work relief projects e308
Bill to be submitted to next Congress...n864
Boston recommends public works merger 890
Confusion in the works program.....e165
Regulations for works projects amended to avoid wage inequalities.....n166
Relief funds all allocated.....n478, e476
Relief funds promise more public works than first estimated n26
Relief program includes regular city work e131
Relief works program—President's announcement n64, e63
RFC cooperates to promote public works and residential construction..n167
Risks in relief work e445
Serious work ahead e517
Uncompleted projects require funds....n446
WPA funds may leave margin for the future n446
WPA gets most of remaining funds for relief work during winter....n414, e410
Works Allotment Board authorizes a number of projects n133
Works bill six months ago e25
Works program fails e759
Works program makes little progress..n204

PUBLIC WORKS ADMINISTRATION

Administrator reports on new program n205
Allotments for states n554
Allotments of the works program (table) 621
Applications for projects not received after Sept. 16, 1935.....n310
Applications may be revised after deadline n340
Applications for PWA grants exceed financing n274
Appropriation date deadline threatens loss of worthwhile projects.....n380, e378
Contract awards for foreign materials will not be interfered with by PWA..n693
Contracts of most work expected by deadline date n796
Deadline advanced as program fails to meet quota n657
Fraud detection makes large savings.. n864, e862
Housing rules liberalize loans for slum projects n84
Interest rates to be reduced n133
Loans and grants n275
Loans and grants:
Advisory Committee moves to halt WPA loans for PWA work.....n310
Inspection group reports on applications in South n310
Operation plan for housing projects offered by PWA n652
Power loan test delayed by action of lower court n692
Projects approved by Roosevelt for allotments n478, e476
Report of work 223
Relief works rules for PWA projects approved by President n99
J. D. Ross appointed consultant to power division n241
Speeding up procedure n66
Three engineers suspended as results of contract award n695
Public Works Conference:
Cincinnati meeting discusses municipal problems 575

PUMPS AND PUMPING

Centrifugal pumps 244
Evaluating pump efficiency as a basis for better purchase specifications. H. J. Summers 375
Pump cases worn by silt relined with lead 198
San Jacinto tunnel installs sealed pump chambers *252
Sewage pump *766
Twin Cities sewer tunnels use hydraulic removal of muck *627, e650

Q

Quebec Electricity Commission:
New commission n692, e690

R

Railway administration:
Engineer's recollections of modernizing operations of the New Haven Railroad. J. F. Stevens, pt. 12....643, e650

RAILWAY CONSTRUCTION

B. & O. R.R. relocation, Tygart River dam (unit prices) 626
Mexico building four railroads.....n449
Moffat tunnel relined with concrete..... *774, e791
Muskingum Valley railroad relocations (unit prices) 591
Railway rates:
New York to investigate rail rates on road materials n692
Railway terminals:
Los Angeles Union Station under construction 127

RAILWAY TRACK AND TRACKWORK

Rails:
Rail fissue research e411
Rail fissues traced to shattered steel and heavy wheel loads. H. F. Moore.*395
Three-way tunnel track siding..... 826
Railways:
South Penn Railway undertaking recalled e759

RAINFALL AND RUNOFF

California's underground water storage in South Coastal Basin *733
Frequency of intense rainfall. Merrill Bernard l*475
Intensity of rains recorded by U. S. Dept. of Agriculture 583
Iowa rainfall frequency analyzed *190
Muskingum Valley rainfall heavy in August storm *689
New York floods featured by record stream discharges *91, e98
New York State rainfall and floodflows *161
Runoff of 34 per cent solids after denudation of watershed 235
Runoff of western rivers discussed at A.S.C.E. meeting 60
Virginia and Maryland flooded by continuous rain n382
Yarnell explains limitations of rainfall intensity data n832
Ransome, Frederick L., dies n553
Regional planning:
Status of state planning in the 48 states *167

*Illustrated; a, abstracts; e, editorials; l, letter; n, news

Reichmann, A. F., vice president of American Bridge Co. n*66
Rensselaer Institute:
Hotchkiss becomes president....n134, n343

RESEARCH

A.S.T.M. current research activities... 20
Hydraulic research at Iowa University. F. T. Mavis *433
Iowa State College research. W. J. Schlick *542
Laboratory contributions e724
Purdue University research work in hydraulics and materials testing. W. K. Hatt *456

RESERVOIRS

Montreal buildings damaged by seepage from reservoirs n480
Platte Valley Power District begins filling of reservoir n833
Quabbin Reservoirs—pneumatic caissons for corewall (unit prices) 278
Saluk reservoir shaft spillway tests... *547
Resettlement Administration:
Suburban housing program at Beltsville, Md. n553
Retaining walls:
Burrard Inlet, Vancouver, precast concrete cribbing for small retaining wall *578
Pressure of loess soils tested with proving rings *883

RIVERS

Army engineers to have permanent duty of river and harbor work..... n383
Brazos River Conservation & Reclamation District does not receive full allotments n624
Catchment boards in England carry out river and drainage work *597
Colorado River water analyzed for dissolved solids content 567
Little Miami River project disapproved by engineers n26
Missouri River—behavior history of the "Big Muddy." R. N. Towl *262
Stainless steel to prevent vegetation in river 562
Tetrahedron dike to control rivers. *470, e476
Willamette water resources studied by engineers n654
Willamette River to be surveyed for flood control and power..... n168
Rivers. See also Flood control.
Rollins, James Wingate, dies..... n*762

ROOFS AND ROOFING

Concrete shell dome for reservoir at Hammond, Ind. J. W. Pearl..... l*617
Dome structures and their design. J. E. Kakinka ..... l 163
Flat shell domes of reinforced concrete. W. S. Hewett ..... l 723
New York Planetarium—centering for the dome. R. L. Bertin *108
Testing a thin concrete shell roof..... *635

RURAL ELECTRIFICATION ADMINISTRATION

Four more projects receive approval.... n695
Loans for seven projects n654
Program amplified by M. L. Cooke.... n760
Use of subsidies suggested n656

S

Safety:
Fort Peck Dam safety methods reduce accidents 327
Fort Peck District of Army Engineers wins safety award 251
Safety Congress:
Louisville, Ky., meeting n820
Sanitation:
International Congress reviews methods of public cleansing. H. P. Eddy, Jr.. 507
Seawalls:
"Compound" seawalls in French Africa. *110
Seattle waterfront reconstruction completed n*833

SEWAGE TREATMENT

A.S.C.E. discusses developments in sewage treatment 581
Atlanta plant to be built by WPA..... e202
Atlanta sewage district to have seven new treatment plants n624
Beltsville Research Center, Md., trade-waste treatment plant *787
Cedar Rapids treats domestic and packing-house wastes *803, e828
Chicago starts fourth large sewage plant. L. C. Whittmore *186
Colorado Springs to build chemical sewage plant n*343
Coney Island, N. Y.—casting concrete pipe 6 ft. in diameter and 24 ft. long. *493
Coney Island, N. Y., sewage treatment.. *489
Current notes on sewage disposal.. 889, e896
Denver to build sewage treatment plant. n655
District of Columbia vacuum filter equipment case dismissed by court..... n761
Goshen, Ind., adopts primary treatment plant which includes magnetite filter. W. S. Bemis *852, e862
Inventory of sewage disposal in the U. S. (table) 224
Madison, Wis., Nine Springs sludge plant n*763
Milwaukee Jones Island treatment plant contractors liable in case n416
New Britain, Conn., to build chemical precipitation plant n902
New Jersey municipalities to bid on disposal plant n414
New York sludge dumping not enjoined by U. S. Supreme Court n830
Pasadena sewage disposal discussed by A.S.C.E. 85
Practice and originality e339
Providence, R. I., puts in use third settling tank 197
Public Works Conference discusses sewage 576
Recent practice in sewage treatment. S. A. Greeley 501
Revival of chemical precipitation. M. N. Baker *748
San Francisco sewage—engineers advise partial treatment 495
San Marco's activated sludge plant. M. N. Baker ..... l 409
San Marcos, Tex., first activated sludge plant still in service. E. W. Steel.... *222
Schenectady plans additions to plant.. n696
Screening nuisance reduced by cutting device 904
Sludge disposal trends discussed at joint sewage association meeting n519
Sprinkling-filter requirements in New Jersey 753, e758
Washington, D. C., filter equipment hearing n555
Sewage works:
West Haven, Conn., to consider disposal plant n205

SEWERAGE

Buffalo Sewer Authority appoints new engineers n726
Buffalo sewer contract approved by PWA n832
Buffalo sewer engineer to be approved by PWA n760
Cedar Rapids, Iowa, plans system for 1970 ..... *118
Chicago Sanitary District:
Requests control gates in Chicago River n*729
Semi-annual report n272
Current notes on sewage disposal.. 889, e896
Merrimack Valley Sewerage District treated n167
New Orleans sewer work to receive PWA funds n654
New Orleans sewerage work held up by injunction n98
New Orleans sewerage work to be paid from local funds n312
Paarl, South Africa, sewerage system.. 779
Twin Cities sewer tunnels use hydraulic removal of muck *627, e650

SEWERS

Atlanta sewer program to be joint PWA and WPA project n693
Buffalo sewer bids asked n794
Montreal court holds contractor not liable for certain damage n901
Montreal reconsiders sewer construction. n240
Montreal sewer work to start n342
Pants-leg section merges two sewers at Topeka *75
Sewer lining resists gas attack. A. M. Rawn ..... l 95
Wards Island intercepting sewers (unit prices) 869
Silbert, Major General W. L., dies..... n*587
Silicosis:
Legislation providing for compensation. n30
New York's law e516
Silos of timber, for storing concrete aggregate *825

SILT

Boulder Dam diversion tunnel discharging silt 747
Colorado River desilting at Imperial Dam *538
Colorado River water analyzed for dissolved solids content 567
Snow surveys:
Depth data on snow to be collected.... n238
Snow surveys discussed by Western State Engineers n729
Society for the Promotion of Engineering Education:

SOIL MECHANICS

Bearing capacity of clay soils. W. S. Housel l*408
Cajalco earthfill dam to be built by solid compaction control *807
Fort Peck Dam—soil tests and analysis. T. A. Middlebrook *285
Ice-pressure determinations in clay soils. *127
Los Angeles alluvial basin solid bearing tests. F. J. Converse *746
New facts in soil research. Arthur Casagrande *320
Pressure of loess soils tested with proving rings *883
Salt for sealing clay. C. H. Lee..... l 235
Salt-stabilized road practice developing *11
Soil-bearing tests for foundations of Akron power house. M. L. Davis..... *46
Soil loading machine tests four samples at once. P. C. Routledge *783, e790; correction 894
S.P.E.E. holds conference on soil mechanics 45
Terminology in soil mechanics. W. S. Housel ..... l 827
Terminology in soil mechanics. I. F. Morrison ..... l 648
Standardization:
A.S.T.M. current research activities.. 20, 55

STEEL

A.I.S.C. discusses economics and technology n589
A.I.S.C. to base manual tables on 20,000 lb. basic working tension..... e618
A.S.T.M. current research activities..... 20
Isteg steel reinforcement for concrete.. *506
Properties of foreign and domestic steels. J. G. Shryock ..... l 789
Stream gaging facilitated by automatic radio transmitters *579
Streets:
Seattle waterfront reconstruction completed n833
Street cleaning discussed by Public Works Conference 577

STRUCTURAL DESIGN

Fatigue studies and structures e24
Fixed-end moments by cardboard models. W. J. Eney *814
Further factors in structural analysis. I. F. Morrison ..... l 789
Influence line determined by polarized light. Samuel Lerner *822
Lessons from wreckage e338
Limitations and application of structural analysis. Hardy Cross. pt. 1 535; pt. 2 ..... 571, e551
Repeated load tests on full size eyebar check results on small specimens. Hussey & Loos *458
Structural engineering studies at Iowa State College. W. J. Schlick..... *542
Subsistence homesteads:
Georgia resettlement project inspected by President n793

SUBWAYS

New York City:
Houston-Essex line to be opened in January n900
Sixth Avenue subway bids n692
Sixth Avenue subway opens bids... n412
Subway contract awarded n652
San Francisco's rapid transit problem reported on by Ridgway n98

SURVEYS AND SURVEYING

Aerial survey methods discussed by A.S.C.E. 581
Ball bearing turning points used for accurate leveling. E. J. Helin..... 455
Chicago land use survey to be handled by plan commission n450
Colorado River aerial mapping must have ground control points 675
Computing cross section areas from elevation notes. J. A. Arthur *474
Constructive reorganization e829
Distinguishing level rods eliminate transpositions 823
Geodetic control discussed by A.S.C.E... 582
New York City WPA projects include engineering surveys n135
Temperature correction table for use with steel tapes 822
Templet made for protecting four low degree curvatures. A. A. Kirkwood. *823
Topography of brushy slopes taken from opposite hillside 199
Triangulation adjustments in plane coordination systems. R. M. Wilson.. 459
Surveying. See also Maps and Mapping.

T

Tanks and standpipes:
Taste and odor tests of paints for water tanks. G. L. Hall 639
Taxation:
Gas tax diversion contributory to accidents (A.G.C. meeting) n830
Telephone ducts lowered by melting ice.. *199
Tennessee Building Industries Council:
Contractors plan for industries council. n729

TENNESSEE VALLEY AUTHORITY

Amendment signed n340
Aurora site dam to be developed n481
Decision of the Court of Appeals on federal power e130, n132
Decision on constitutionality to be reviewed n449
Detachable and forged drill bits compared by TVA..... *884, e896
Economic planning and the TVA discussed by A.S.C.E. 580
Labor relations policy adopted by TVA. 511, e516
Northwest does not favor TVA type of development n654
Tennessee Valley Authority. See also Dams: Wheeler, Norris, Pickwick, Guntersville, Aurora.

TESTING MACHINES

Purdue University research work in hydraulics and materials testing. W. K. Hatt *456
Soil-loading machine tests four samples at once. P. C. Rutledge..... *783, e790

*Illustrated; a, abstracts; e, editorials; l, letter; n, news

Tensile and bend testing machine.....*418
Towers:
Leaning Tower of Pisa's oscillations....*546
Transportation:
New York's rail freight brought by bridge and tunnel e203
Trestles:
Jackson County, Miss., places concrete decks on old timber trestles. L. C. Winterton *264
Trusses:
Heavy trusses in buildings. E. E. R. Tratman 1 617

TUNNELS

Casper-Alcova tunnel canal siphon outlet *385
Cedar Rapids, Iowa, tunneling methods used in sewerage system *118
Chicago Avenue water tunnel lining—old time continuous mixer for concrete. Frank Rasmussen *49
Chicago water tunnel blast kills two..n313
Drill carriage wings held up by toggle braces *822
East River Tunnel, New York:
RFC may finance n730
Fort Peck Dam—diversion tunnel driving *296
Jersey City-Brooklyn Tunnel:
To be subject of hearing n274
Los Angeles water tunnels uses turntable swing saws *826
Middletown, N. Y., tunnel:
Relief labor drives tunnel by shield method *808
Mid-town N. Y. tunnel:
Bids opened n695
Holed through e203, n204
New bids asked for approaches n830
Port Authority rejects bids n730
Revised plans due to PWA allotment..n793
Moffat tunnel:
Relining tunnel with concrete..*774, e791
Three men injured on blast.....n272
Tunnel maintenance history..... 357
Mono Craters tunnel:
Muck-car coupling *825
Owens Valley Aqueduct extension includes 11.3 mile tunnel..... *47
Three-way tunnel track siding..... 826
Unwatering lessened by drilling well near shaft 13
Uses drill carriage of compact form..*198
Pasadena tunnel of Colorado River aqueduct being driven in soft material.*513
San Jacinto:
Sealed pump chambers *252
Taylor Dam diversion tunnel holed through n241
Toronto tunnel halted by Canadian government n653
Twin Cities (Minneapolis-St. Paul) sewer tunnels use hydraulic removal of muck *627, e650
Yerba Buena Island tunnel n*383

U

UNEMPLOYMENT

Federal funds for direct relief ended... n792, e791
President plans for future relief needs.n132
Relief appropriations 404
Relief needs likely to increase.....n204
Relief work during winter to be carried on by WPA funds.....n414, e410
Relief fund applications—deadline set.n310
Unit prices. See Construction.
U. S. Bureau of Census:
Construction census will cover 1935 operations 894
U. S. Bureau of Public Roads:
Principles for secondary road projects outlined n311, e308

U. S. BUREAU OF RECLAMATION

Advertises for bids on additional work.n728
Allotments cut by President.....n481
Allotment for Central Valley work received by Bureau n*413
Allotment of $100,000,000.....n101
John C. Page appointed Chief of Engineering Division n*553
Reclamation projects receive funds n133, n380

U. S. COAST & GEODETIC SURVEY

Control surveys by states to be continued n792
Keep the survey work going.....l 129, e130
PWA allotment unauthorized n652
Seismological investigations in California. F. P. Ulrich *680
Survey turned down n690
Surveys under state WPA e828
U. S. Dept. of Interior:
Under-secretary of Interior named.....n189

V

Valuation:
Procedure of Chesapeake & Potomac Tel. Co. reviewed by Supreme Court..496, e517
Viaducts:
Randolph viaduct in Chicago — bids opened n864
Thomas viaduct celebrates 100 years of service n*67
Viscosimeter for bitumens. Rhodes, Volkmann, & Barker *714

W

Walls:
Damp proof walls. G. L. Bilderbeck..l 163

WASTES, INDUSTRIAL

Beltsville Research Center, Md., trade-waste treatment plant *787
Cedar Rapids treats domestic and packing house wastes *803, e828
Sewage treatment by chemical precipitation. M. N. Baker *748
Treatment of wastes studied by Iowa State College. W. J. Schlick.....*544

WATER METERS

Chicago nearing filtration and metering. A. E. Gorman *371
Cincinnati stub plan simplifies water-consumer accounting. M. F. Hoffman.. 368
Time record on new device 558

WATER POLLUTION

Congress considers two bills to halt pollution n204
Interstate sanitation commission holds first meeting n274
National Resources Committee receives report on water pollution 505, e516
National Resources Committee suggests extensive pollution control plan.....n480
Ohio River pollution to be controlled by interstate board n416
Pollution standards sought by A.P.H.A.n556
Tri-State Anti-Pollution Commission sworn in n135
Tri-State pollution board for studying pollution of New York Waters..... n28
Tri-State Sewage Board approved....n310

WATER RESOURCES

California's underground water storage in South Coastal Basin *733
National Resources Committee to study water resources n272
New Hampshire Water Board outlines conservation plan 600
Providence watershed reforestation discussed at N.E.W.W.A. meeting..... 438
Rio Grande Compact requests water resources study n901
Willamette River to be surveyed to indicate best method of stabilizing resources n168
Willamette water resources studied by engineers *654

WATER RIGHTS

Arizona formulates program for Colorado River developments n29
Arizona renews litigation over Colorado River water n760
Arizona water suit in Supreme Court..n830
Nebraska-Wyoming dispute to be heard by master n553

WATER SUPPLY

Aberdeen abandons wells for a treated surface supply. W. W. Matthews....*361
California's underground water storage in South Coastal Basin *733
Central Valley project receives allotment n*413
Chicago nearing filtration and metering. A. E. Gorman *371
Cross-connection hazards eliminated through surveys 121
Denver goes to West slope for additional water supply *357
Denver votes bonds for change in Fraser River plans n380
Hartford enlarges its water supply system for the third time. C. M. Saville *351
Hetch Hetchy power sales found to violate federal act n312
Little Rock, Ark., amends application for water funds n657
Little Rock, Ark., gets funds allotted for water system n899
Little Rock offers to buy water company properties n794
Montreal to build new intakes for St. Lawrence River water....*849, n864, n342, n555
N.E.W.W.A. discusses water supply in the tropics of Spanish America.... 439
New Jersey Sanitary Assn. discusses mosquito control and water conservation n728
Omaha water sales for 1934 537
Planning for water service e379
Salt Lake City relieved by groundwater in drought emergency. Taylor & Leggette *359
Springfield, Ill., celebrates new supply.. n66
Statewide water management needed....e758
Turkey's new capital city builds a modern water supply. F. A. Liefrinck..*225
Utah Cities favor formation of water districts n275
Westchester, N. Y., may be faced with water shortage n763
Western State Engineers discuss underground water n729
Water supply. See also Reservoirs.

WATER TREATMENT

Aberdeen abandons wells for a treated surface supply. W. W. Matthews....*361
A.W.W.A. discusses water treatment.. 307
N.E.W.W.A. discusses water purification 439
Chicago nearing filtration and metering. A. E. Gorman *371
Los Angeles water plant capacity increased by modifying settling unit. R. F. Goudey *370
Merrimac Valley, Mass.—chlorination of shellfish area 356
Ozone for water purification *325

WATER WORKS

AWA Sectional meetings in the Mid-west n694
Baltimore granted PWA allotment for improvement program n518, e516
Chicago waterworks crib has firedamp explosion n339
Cross-connection hazards eliminated through surveys 121
Fire service charges by private water works and by municipally owned water works (N.E.W.W.A. meeting) 94
Ft. Smith, Ark., Clear Creek water project (unit prices) 523
Hartford enlarges its water supply system for the third time. C. M. Saville.*351
Los Angeles water-plant capacity increased. R. F. Goudey *370
Michigan City, Ind., improves management to aid waterworks development. P. C. Gale *365
New Orleans Water Board terminated by decree n866
Philadelphia proposal to borrow on water funds e758
Pittsburgh-fingertip control of water service e309
Port Jervis, N. Y., leakage in earthfill dam checked by grouting. E. M. Wilbur *499
Reading, Pa., water works dam complicated by eroded limestone. Farley Gannett *328
Rock Island, Ill., repairs old water basin 194
Turkey's new capital city builds a modern water supply. F. A. Liefrinck..*225

WELDING

Arc-welded bridge girders tested to failure. LaMotte Grover.....*392
Arc-welded bridge girders—correction. LaMotte Grover 1 649
Bridge welding procedure. LaMotte Grover 1 649
Bridge with welded steel plate floor over Tuscarawas River, Ohio. Hawley & Merrell *472
Cross-field aids in better welding..... 835
Unit mounted on tractor.....*483

WELLS

Artesian waterbed revealed in North Dakota 261
Artesian well control discussed by Western State Engineers n728
Canadian survey for artesian water.. 80
Groundwater regulation e378
N.E.W.W.A. has groundwater symposium 440
Salt Lake City relieved by groundwater in drought emergency. Taylor & Leggette *359
Tacoma, Wash., develops well water sources *514
Tunnel unwatering problem reduced by well drilled near shaft 13
Utah requires licensing of all water wells n415
Western Society of Engineers:
L. S. Keith succeeds Nethercut as secretary n*382
Western State Engineers Assn.:
Salt Lake City meeting n729

WHARVES AND DOCKS

Cartagena, Colombia, constructs new piers and wharves. R. H. Cady *710
English marine terminal has concrete quay. E. E. R. Tratman *265
St. Petersburg, Fla., concrete recreation pier repaired. F. G. Lee..... *1
Williams, Clement C., honored at New York n763
Wood:
Lumber supply and demand nearly balanced 335
Wood preservation:
Metallic salts used in treating piles.. 824
Output of treated timber increased in 1934 235

WORKS PROGRESS ADMINISTRATION

Control surveys by states to be continued n792
Employment far short of the mark.....e584
Employment will not reach goal set for Nov. 1 .....n586
Engineering supervision of work will be under army engineers.....n518, e516
State programs approved to Aug. 13..n240
Works Progress Administration. See also Public Works.
World Power Conference:
Asked to Washington in 1936.....n480
Program taking form n763
